Fullstack Web Developer with 20 years of experience in managing and leading teams for private and publicly traded companies.

FULL-STACK PROJECT EXPERIENCE

DYBS - *Diversify Your Bookshelf*

GitHub | Project Link

- An educational resource application for children of reading age and parents to search for 'kid-friendly' books on topics of diversity and communication. Powered by GoogleBooks Api.

LOCKBOX - *Password Generator*

GitHub | Project Link

- Custom programming logic written in Javascript that outputs to the user a alphanumeric, case-sensitive string ranging from 8 to 128 characters.

WEATHERNOW - *US Cities & Five-Day Forecast*

GitHub | Project Link

- WeatherNOW is an application that provides a five-day weather forecast for US cities. The application utilizes local storage for recent search history and tracking.
